ALLIED HEALTH SCIENCES

TIER 5 EXCELLENT SETARA

Nilai University
As our standard of living is improving, it is no surprise that more people are placing a greater emphasis on health.

Hence the explosion of healthcare and wellness centres. Invariably this leads to greater demand for skilled and qualified professionals such as nurses and medical laboratory technology (MLT) personnel.

Allied health practitioners are health professionals who provide professional care in various healthcare settings to complement the work of physicians in the overall care of the patient.

All allied health professions require licensure following the completion of an accredited programme. It is therefore, important that you choose an institution that provides you a solid and accredited qualification whilst equipping you with the skills and attitude to excel in this socially orientated line of work.

Students will get ample exposure at the various public & private institutions for clinical placement.

Arunamari Hospital
Chinese Maternity Hospital Seremban

and many more
INDUSTRIAL TRAINING

The Nilai U programme produces well-trained graduates who are equipped with knowledge and skills in the areas of health, behavioural and nursing sciences to enable them to have a sound understanding of what it takes to be in this caring and nurturing profession.

Students will be exposed to hands-on training at both public and private health care institutions. Graduates of this programme will be able to work at leading private and government hospitals. They are also able to further their studies locally or abroad.

The Nilai U programme produces well-trained graduates who have the ability to perform and specialise in the various fields of medical laboratory sciences. It is in accordance with the needs of the laboratory services in the country.

Students will be exposed to hands-on training at both public and private health care institutions. Graduates of this programme will be able to work at leading private and government hospitals. They are also able to further their studies locally or abroad.

The faculty is actively involved in the organisation of activities that range from learning excursions to conferences and workshops that facilitate interaction between the academia and industry. These activities provide a platform for interaction between the different fields and enables the adaptation of the latest learning experiences for you.

You will be a part of a bigger picture.
Mavis is full of praise for Nilai U’s nursing lecturers who spent a considerable amount of time preparing students for the Nursing Board examinations. She says they are fully committed to ensuring students really understand lessons and are well prepared for important examinations with extra revision classes, pop quizzes and mock tests. Nuraini weighs in by saying that the lecturers had prepared a complete revision and preparation schedule for all the nursing students sitting for the examinations.

Nuraini Mohd Nasir & Mavis Tan Jia Min (R-L)
Graduate of Class 2013
Diploma in Nursing

Amy Lee Si Mun & Melissa Lee Kar Yan (L-R)
Graduate of Class 2013
BSc (Hons) Nursing

Both young ladies also believe that any school leaver considering nursing, to opt for the degree programme. “Employers are looking for higher qualified staff. Having a degree shows that you have undergone a more strenuous academic process and you understand your field in greater depth and detail,” explains Amy. Melissa concurs and says that many employers end up sending their good staff who are diploma holders to get their degrees.

Melchizedek Michael Jimbai
Current Student
Diploma in Medical Laboratory Technology

Melchizedek Michael Jimbai is happy enough at Nilai U to confidently recommend his programme and the institution to family and friends. “If you are good in both biology and chemistry, this is a great programme to suit your strong points. You will be studying in a great campus with good lab facilities,” he smiles genuinely.

Having been used to a more difficult level of test, we found the Nursing Board exams to be relatively easy. But that came with a lot of hard work. Our lecturers took great efforts to ensure all of us understood the lessons and key concepts.

Mastura Norden and Chua Sin Yee are from the Diploma in Nursing programme who scored distinctions in the external Nursing Board examinations.

WHY NILAI U?

ENRICHMENT FOR LIFE
Nilai University’s 105-acre award-winning campus is dedicated to a sole mission – to bring out the best in you.

We are committed to providing a life-enriching experience that will challenge and stimulate not only the mind and body but also to nurture the soul of the human spirit.

IDEAL LOCATION
Strategically located in the bustling township of Putra Nilai, we are a short 35-minute drive from Kuala Lumpur city centre and 20 minutes from the Kuala Lumpur International Airport.

EXTENSIVE LAB AND EQUIPMENT FACILITIES
Nilai U has invested in well-equipped skills laboratories.

This allows students to learn clinical skills in a more humanistic manner prior to their actual clinical posting.

This transition enhances clinical learning and paves the way for students to be better equipped to deal with the stress of real working environments.

The Nilai University
BLUEPRINT FOR SUCCESS

STRONG COURSES
Programmes combine a strong base of courses in the chosen field of study.

CHARACTER BUILDING
Course modules to nurture professional development and character building.

HOLISTIC DEVELOPMENT
Co-curriculum involvement to promote self-confidence, independence and resourcefulness.

INDUSTRY INTERNSHIP
Provides practical experience at a supervised field site to complement theoretical learnings.
Nilai Springs Resort Hotel is a four-star resort hotel with 183 guest rooms and suites. It is located just 5 minutes away from Nilai U and is equipped with its very own 27-hole championship golf course.

35 mins drive from KL
